FIRE RATED ACOUSTIC INTER-TENANCY WALL SYSTEM

Soon to be released Stonewall Platinum "Complete" Inter-Tenancy wall system which is available in a variety of tested FRL fire ratings. A 60 minute, 90 minute and 120 minute FRL fire rating has been achieved for this patented world first system. "Complete" is an all in one wall solution that eliminates framing, insulation and plaster for a quick and easy installation process.

"Complete" panels will also be available in a number of pre-finished options including timber, fabric or in its natural state as a high impact fibreglass surface which can be painted, rendered or have any architectural surface finish applied. No other system can achieve this within a 150mm wall thickness.

"Complete" has also achieved a 120 minute fire rating with over 150 surface penetrations.
