

STONEWALL PLATINUM®

NON-COMBUSTIBLE ACOUSTIC INSULATION PANEL SYSTEMS

STEWARDSHIP COMMITMENT

The earth and its future inhabitants have been entrusted to our care and although we cannot look after the earth in its entirety, we can focus on playing our part within Australia and locally.

Through careful and responsible management, Stonewall Platinum conducts and supervises its responsibility with a view to actively prepare Stonewall Platinum's future vitality as being a steward.

As stewards of the industry, Stonewall Platinum acknowledges commitments to environmental, philanthropic, ethical and economic responsibilities.

ENVIRONMENT

As part of our commitment to the environment, finding a solution for our most popular product Aspect Vivid. However, our commitment to Recycle, Reuse and Repurpose, lead us to this...

Recycle and Reuse

In consultation with our supplier abroad, we have collaborated with a local Stone organisation to Recycle and Reuse Aspect Vivid by...

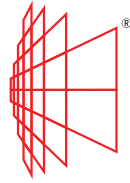

1. Crushing and Pulverising the discarded Aspect into powder.
2. Mixing Aspect Vivid powder with cement, gypsum powder and water within a high speed mixer.
3. Pouring the resulted mixture into moulds.
4. Drying the newly formed bricks in the drying yard.
5. To then pack on a recycled timber pallet.

Repurpose

Remnants and pieces larger than 150mm x 200mm generated on Australian project sites are collected and returned to either a distributor or to Stonewall Platinum, where it is re-used as sampling to facilitate future projects, i.e.; Re-purpose existing.

PHILANTHROPIC

As part of our commitment to philanthropics, we give back to the community by providing an ongoing charitable donation to the Australian Institute of Policing, a Youth publication called "The Street Smart Handbook" dedicated to assisting the youth, through the transition of secondary schooling to the workforce and lastly an ongoing yearly sponsorship of the Rossmoyne Bowling Club. We also look to the here and now locally, recently contributing to those in our community, who suffered due to flooding caused by the storms.

STEWARDSHIP COMMITMENT

ETHICAL

As part of our commitment to being ethical, we actively steer clear of events or organizations that do harm to people or the environment.

ECONOMIC

As part of our economic commitment, we will manufacture and provide products for the betterment of our society, while increasing standards of living both locally and nationally.

Maximising profits, will provide us with the capacity to give back to the those in our local community and nationally.

Outsourcing locally, supports growth of local business directly and indirectly.

Buy sourcing future employment locally and considering those of Aboriginal and Torres Strait Islander heritage.

Through our knowledge, the innovation of products and securing these through trademarks and patents will hold us in good stead to secure our financial viability.
